.NET Developer/ Application Support & Maintenance

ghoshsoumyadeep3@gmail.com

LinkedIn : //ghoshsoumyadeep3
GitHub: https://github.com/Soprso
Portfolio: My Custom Portfolio 1

● **Strong knowledge on C#, ASP.NET MVC, WEB Api, SQL Server.**

● **Support and Maintenance : Providing technical support (L2/L3), maintenance and enhancements for existing applications over 8 years.**

● **Code Reviews: Participating in code reviews to ensure code quality and adherence to coding standards.**

● **Problem Solving: Troubleshooting and debugging issues, and proposing effective solutions.**

● **Documentation: Creating and maintaining technical documentation related to software development activities.**

● **Good skills in Bootstrap, CSS, CSS3, jQuery, JavaScript and HTML5, XML, REST Web API, SOAP Web Services**

● **Strong skills in database technologies (Microsoft SQL Server) including database development (T-SQL).**

● **Good knowledge of web architecture and design patterns**

● **Solid working knowledge of current technologies including Object Oriented analysis and design practices (Object modeling, use cases, activity diagrams, and UML).**

● **Deploy applications using Azure.**

● **Familiar with various forms of SSO and an understanding of security best practices such as OAuth 2.0**

● **Familiar with Software Development Life Cycle, various development methodologies, and able to independently participate in each phase.**

● **Ability to design and implement solutions that are reliable, scalable, and perform at a high-level to meet the service levels associated with mission-critical solutions.**

● **Proven analytical and problem-solving abilities with ability to anticipate and avoid problems.**

● **Ability to work well within a team environment that includes geographically distributed team members.**

● **Ability to work within tight deadlines and effectively prioritize and execute tasks in a high-pressure environment.**

● **Strong communication skills (verbal and written) and an ability to communicate with internal and external customers and all levels of management, including communicating technical information to nontechnical audiences.**

● **Ability to design and build flexible and extensible systems with focus on code reuse and generation.**

● **Experience with writing detailed technical specifications for developers; design, validate and execute software test plans.**

SKILLS

Languages: C#, C++,

Powerbuilder, Javascript,

Typescript,

HTML,CSS,JQuery.

Technologies: Asp.Net/.Net

Core (MVC/Web Api) ,
Angular

JS, ADO.NET, Entity

Framework Core, SQL
Server,

Adobe LiveCycle, Windward

Studios, Azure.

Concepts: OOPs, SOLID
Principles, Design Patterns,
Agile, REST APIs.

Others: Versioning:
GITHub, SERENA, TFS,
Octopus.

Ticketing Tool: Service
Now, JIRA.

LTIMindtree, Kolkata — *Technical Lead*

16th August 2022 - 3rdOctober 2023

Technologies:

- SQL Server
- Adobe Livecycle
- Windward Studios

Version Control: TFS/ GIT

Application Support and Maintenance:

Played a key role in providing (L2/L3) support and maintaining the Insurance application. **Incident Management/ Defect Management** using **ServiceNow** and **JIRA**. Application Monitoring and HealthCheck Monitoring using **SolarWinds**.

Team Management:

Managed a team, including task distribution and regular coordination with the Project Manager on team goals.

Cognizant Technology Solutions, Kolkata— *Associate*

November 2021 - August 2022

Technologies:

- .NET Framework
- SQL Server
- C#
- Web API 2.0
- Entity Framework

Version Control: TFS/ GIT
Build Management Tool: TeamCity
Deployment Tool: Octopus
Decompiler: ILSpy

Migration of .NET Services:

Successfully led the migration of .NET services from Framework 1.0 to 4.8.
Web Application Development:

Contributed to the development of a web application for the Travel and

Hospitality sector.

Application Support and Maintenance:

Played a key role in providing (L2/L3) support and maintaining the Insurance application. **Incident Management/ Defect Management** using **ServiceNow** and **JIRA**. Application Monitoring and HealthCheck Monitoring using **SolarWinds**.

Cognizant Technology Solutions, Kolkata — *Programmer Analyst*

May 2017 - October 2021

Technologies:

- .NET Framework
- SQL Server
- C#
- AngularJS/Angular
- Asp.NET Web API
- ADO.Net
- HTML5/ CSS
- Typescript

Ticketing Tool: ServiceNow
Monitoring Tool: Dynatrace
Version Control: TFS/ GIT

Application Support and Maintenance:

Played a key role in providing (L2/L3) support and maintaining the Insurance application. **Incident Management/ Defect Management** using **ServiceNow** and **JIRA**. Application Monitoring and HealthCheck Monitoring using **SolarWinds**.

Migration and Maintenance:
Successfully migrated and maintained the platform, contributing to its stability and performance.
Technological Expertise:
Developed expertise in technologies like AngularJS, Asp.NET Web API, and ServiceNow ticketing tool.

Cognizant Technology Solutions, Kolkata — *Programmer Analyst Trainee*

March 2015 - April 2017

Technologies:

- SQL Server

- .NET Web Api

- AngularJS/Angular

- Asp.NET Web API

- ADO.Net

- HTML5/ CSS

- Typescript

Version Control: TFS/ GIT

Application Support and Maintenance:

Played a key role in providing (L2/L3) support and maintaining the Insurance application. **Incident Management/ Defect Management** using **ServiceNow** and **JIRA**. Application Monitoring and HealthCheck Monitoring using **SolarWinds**.

PERSONAL PROJECTS

Weather Forecast — Live Demo Link below:

[Weather Forecast](#)

Weather Forecast website that displays data for next 4 days for every hour and current weather as well based on location-name or based on coordinates. It has two different themes and weather reports can be shared across social media platforms.

FrontEnd - HTML/CSS, Javascript.

APIs - OpenWeather Apis, RapidApis.
